ABOUT ACT

ACT Scaffolding Services LTD is a family-run scaffolding company based in Barnsley, South Yorkshire, providing reliable access solutions for industrial, commercial, and construction projects across the UK.

With over 20 years of industry experience, we understand the importance of safe, well-planned, and professionally managed scaffolding, especially within demanding site environments.

From labour-only scaffolders to fully managed supply, erect, hire and dismantle services, our team supports clients with experienced operatives, practical site knowledge and a strong commitment to health and safety.

Supporting Industrial, Commercial and Construction Projects

ACT Scaffolding Services provides scaffolding support across a range of industrial, commercial, and construction environments. Every site is different, so our approach is built around safe access, practical planning and reliable delivery.

We support boiler outages and annual shutdowns and provide access for repairs, inspections, and maintenance. We understand how important it is for scaffolding to work around the wider project, not just the structure itself.

- Industrial sites and energy recovery facilities
- Shutdowns, outages, maintenance and repair works
- Commercial projects, construction sites, and emergency access requirements

Whether the requirement is labour-only support, or a fully managed service, ACT can provide experienced operatives and access solutions suited to the needs of the site

Why Clients Work With ACT

Choosing the right scaffolding contractor is about more than putting a structure in place; it's about working with a team that understands the site, the risks, the timescales, and the importance of keeping work moving safely

Experienced Operatives

Our team is made up of experienced scaffolders with the skills, knowledge, and attitude needed to work safely and professionally across different site environments.

Health & Safety Focus

From planning and supervision to safe access and the correct use of PPE, we work to support safe working systems in line with current regulations and site requirements.

Industrial Site Knowledge

ACT has experience working within demanding industrial environments, including energy recovery facilities, boiler outages, shutdown support, emergency repairs and maintenance work.

Why Clients Work With ACT

Our service is built around practical site knowledge, reliability and flexibility, helping clients access the support they need without unnecessary disruption

Reliable Project Support

Whether labour-only or fully managed, ACT provides practical, responsive support designed to help projects run safely and efficiently.

Flexible Service Options

Every project is different. We support maintenance, shutdowns, repairs, emergency access and full scaffold supply, erection, hire and dismantle.

A Family-Run Approach

As a family-run business based in Barnsley, we take pride in being reliable, approachable and committed to delivering work to a high standard.

Company Objectives & Our Approach

At ACT Scaffolding Services, our objective is to provide clients with a safe, reliable and professionally managed scaffolding service.

Service Standards

- Provide a quality managed scaffolding service
- Supply qualified, experienced and competent operatives
- Meet client expectations and site standards

Safe Delivery

- Provide safe working systems in line with current regulations
- Deliver on time and within agreed project requirements
- Support safe working environments for employees and clients

Long-Term Growth

- Encourage training, progression, and continuous improvement
- Build a strong relationships through reliable service
- Maintain a respected reputation within the industry

How We Work

We take a practical and site-led approach to scaffolding. Before work begins, we consider the environment, access requirements, safety considerations, surrounding trades, site restrictions and project timescales.

This allows us to provide scaffolding support that fits around the wider job, rather than treating access as an afterthought.

- Understand the site and scope of work
- Plan access around people, trades, and timings
- Deliver safe, practical scaffold solutions
- Support projects with reliable communication

By combining experience, planning, and reliable delivery, ACT aims to provide scaffolding solutions that support safer, smoother, and more efficient projects.

Keys to Success

At ACT Scaffolding Services, we believe the strength of our business comes from the people behind it.

Scaffolding is a skilled trade that relies on more than qualifications alone. It requires the right attitude, a strong work ethic, practical site knowledge and the ability to work safely and professionally in different environments.

- **Reliable operatives**
- **Clear communication**
- **High standards of workmanship**
- **Practical problem-solving**
- **A strong safety mindset**

Our success is built on providing client with reliable operatives who understand the importance of safe access, clear communication and high standards of workmanship.

People, Standards & Continuous Improvement

ACT believes that the right team is one of the most important parts of delivering a dependable scaffolding service.

The Right People

Whether labour-only or fully managed, ACT provides practical, responsive support designed to help projects run safely and efficiently.

Work Ethic & Attitude

We value operatives who take pride in their work, communicate well, and following safe working practices while working efficiently.

Continuous Improvement

We believe in learning from experience, building new skills and adapting to the needs of our clients. This helps us provide a stronger, more flexible service.

Services Offered

ACT provides both labour-only scaffolding support and fully managed scaffolding services, including supply, erect, hire, and dismantle.

Our scaffold technicians and operatives are experienced across a range of industrial, commercial, and construction requirements.

- Industrial scaffolding

Health & Safety Commitment

Health and safety is central to the way ACT Scaffolding Services operates. We are committed to protecting employees, clients, site teams and members of the public who may be affected by our work.

We aim to maintain safe systems of work, competent supervision, clear communication, and suitable working practices across every project.

- Competent supervision
- Relevant instruction, information, and training
- Correct use of PPE
- Safe access and egress
- Ongoing attention to health and safety requirements

Safe scaffolding is not only about the structure. It is about the planning, people, and working practices behind it.

Health & Safety in Practice

ACT works to support safe working systems by taking reasonable steps to manage risk, provide competent supervision and encourage high standards of safety performance.

Management Responsibilities

ACT appoints competent people to help supervise and apply health and safety measures, with responsibility delegated to the supervisor at each site location.

Employee Responsibilities

Employees are expected to co-operate with management, follow company procedures, use protective equipment correctly and report incidents or unsafe conditions.

Continuous Attention

We maintain continued interest in health and safety matters relevant to company activities and aim to set an example in safe behaviour.
